ABOUT RAW MATERIALS. Blaine Addresses a Meeting at Buffalo-A Telling Speech.

Copyright, 1888, by the California Associated Press. BUFFALO, October 22d.—Mr. Blaine addressed a mass meeting at the Rink to-night. He spoke about twenty-minutes, criticising the action of the Ways and Means Committee in the formulation of the Mills tariff bill. He declared that one of the most frequent and repeated arguments of the Democrats in favor of what they term tariff reform is the necessity for the admission of raw material free of duty. They leave it to be inferred that the Mills bill attains this end. Their failure to explain all the provisions of that bill amounts to the suppression of the truth.

of that bill amounts to the suppression of the truth.

"Let me ask some Democratic speaker or journal," he said, "to tell the public how far and for what reasons raw materials are admitted free by the Mills bill. In the meantime I will contribute a few facts to the discussion. If I mistake not, the Mills bill combines the most indescribable features of legislation ever attempted in a tariff measure. Let us take the raw materials in detail. Coal is a raw material of unmeasurable value. The original design was to admit coal free of duty, but the Democratic Ways and Means Committee were plainly told that they would thus endanger the supremacy of their party in Virginia, West Virginia and Maryland. Iron ore is raw material. It was proclaimed by the Democrats that iron ore was the basis of all forms of iron and steel fabrics, and that its price must be lowered, but it found Mr. Barnum, Chairman of the Democratic National Committee, the owner of one of the largest mines of iron ore in the Lake Superior region. Mr. Brice controlled the road that derived a large sum from the transportation of this ore. Smith Weed, too, was largely interested, and the Democratic Ways and Means Committee suddenly abandoned the idea of putting iron ore on the free list."

Blaine continued, showing that for similar reasons lime was not put on the free list. Wood pulp was also not made free, on Don M. Dickinson's account. Blaine devoted himself emirely to such inconsistences as these in the Mills bill. His speech was enthusiastically applauded.

A WORD TO FARMERS. Blaine said that when the Democrats of the Ways and Means Committee came to the raw material, wool, they found no representative Democrats pecuniarily interested in it. The wool interest divided and subdivided among the farmers of the country. The entire clip is worth \$100,000,000 every year. Subdivided as it is, that vast sum reaches 600,000 or 700,000 families in the land. There are no big Democrat's to protect—no Democratic yotes, are trembling lies in the land. There are no big Democra's to protect—no Democratic votes are trembling in the balance there. Wool concerns only the farmers away off in the country men engaged in honest industry, not in packing caucuse, nor in controlling Conventions—men who are not of any particular use to the Democratic party. So wool went on the free list, and is held there against all protests, notwithstanding the injury inflicted upon so large a number of families throughout the entire country. Never before in this country have such scandalous revenges been attempted in legislation. It stamps the Mills bill from beginning to end, as a measure full of personal benefits and personal wrongs.

Mr. Edgerton says, on report, that he will soon tender his resignation, in order to give his personal attention to his private affairs. In case this happens, the President will have the appointment of two Democratic members of the Commission to succeed Edgerton and Oberly, who has been appointed as Commissioner of Indian Affairs.

These places will be likely to remain unfilled until after the election. Of course, the truth about these things is shrouded in gloom at the White House and there is nothing definite to be learned.

ROBINSON VS. FAIR.

The Jurisdiction of Probate Courts in Certain Cases Upheld. Washington, October 22d.—The Supreme Court to day animmed the decision of the Circuit Court for the District of California in the case of Robinson vs. J. G. Fair, involving the title to valuable real estate in San Fraucisco. The property in question originally belonged to Horace Hawes and was divided among his heirs by the Probate Court. It was claimed by plaintiffs that the Probate Court had no jurisdiction in suits for a partition. The decision says the Supreme Court of California has held that under the Constitution of the State the distribution powers of any Court are not exclusive, and the Legislature could give such powers as are contended for in this case to the Probate Court, guided by the spirit rather than by the letter of the law. The Supreme Court and affirms the decision of the Court below. Copyright, 1888, by the California Associated Press.

CARQUINEZ STRAITS.

Senator Stanford Thinks They Will Not Soon be Bridged.

New York, October 2.d.—The managers of the Southern and Central Pacific Railways propose to bridge Carquinez Straits, and thus effect an entrance to San Francisco without a big transport. The exact location has not yet been decided on, but it is believed it will be North Vallejo or Vallejo Junction. Another proposition is to build a bridge at Dumbarton Point. Senator Leland Stanford, one of the Southern Pacific magnates, when seen at the Windsor Hotel last evening, said the proposition of building bridges at those two points has often been considered by the owners of the road, but that as yet no definite action has been taken, he believed, to build a bridge at either place. It would be a good move, but he did not think the time quite ripe for such an undertaking.

"It will be done some time, of course," said he, "but certainly not at present. The transfer steamer which runs across the Straits of Carquinez answers our purpose very well, only about twelve minutes being lost on the water. It is doubtful if much of this time could be saved by a bridge, as the trains would have to run slowly, stop before crossing the draw, and, even if a few minutes could be saved, it would not be an important matter just now. The coest line via Templeton is attracting our attention now. We must complete this before we think of undertaking any other radical changes." Soon be Bridged.

disaster at Mud Run on the Lehigh Valley road, returned a verdict to-day finding the engineers of both locomotives of the seventh section guilty of gross carelessness in failing to see the danger signal in time, and for not approaching the station with their trains under control, as required by the rules. The engineer of the second engine could have stopped the train had he applied the air brakes and he is censured for not having done so.

A lookout man was on each engine, in addition to the engineer and fireman, having been placed there especially to watch for signals. These men are found guilty of gross negligence. The lookout on the first engine claims that he did not see the red light. The other man testified that he saw it when about 1,500 feet from the station, and yet he reported all right to the engineer, and claims he did not think the red light meant anything, as nobody used it.

These men are guilty of gross negligence, as is also the rear brakeman of the sixth section, for while he had ample time to go back at least half a mile with his red light, he went less than 400 feet.

The conductors of both sections failed in their duty—one in not conforming to the rule requires each conductor to see personally that duty—one in not conforming to the rule requirity—each conductor to see personally that his br. cemen protects the rear of his train, and the other in not requiring his train to approach the station under control.

Findings of the Coroner's Jury in the Case MOUNTAIN AND VALLEY RAVAGED BY FLAMES.

San Francisco, October 22d—[Special.]—The Democratic uniformed clubs of this city paraded this evening, and the show was a disappointment to many who were led to believe it would excel that of the Republicans a few weeks ago. The procession occupied only half an hour in passing a fixed point on Montgomery street.

The enthusiasm was very weak, but what was lacking in enthusiasm was made up by the unusually large number of small boys who were in line. Many persons were on the sidewalks on both sides of the streets along the line of march. but they did no encourage the processionists to any extent nor cheer until hoarse.

The fact that the *Examiner's editorial-room did not make any display of glad ess was the subject of remark. The general verdiet was that, as a campaigm parade in a Presidential year, it was a failure.

London, October 22d.—The Special Judicial Commission for the trial of the Times' charges against Parnell and sixty-four Iri h members of Parliament resumed its sixtings in the Protate Court room this merring before a great audience. Sir Richard Webser appeared for the Times and the Government, and Sir Charles Eussell for Parnell and his colleagues. Parnell came in early. He is in good health, but was slightly pale.

Webster cautiously opened the case for the prosecution. He said the representatives of the Times had not the authorities to prove the truth of the charges. It was absurd for him to declare that when he Times made its charges it was in possession of legal proof of the same. The accusations which had been formulated rested to a certain extent upon articles, editorial and reportorial, in the Irish World, United Ireland and the Freeman's Journal.

The prosecution is considered very weak. The friends of the Times, however, reply they are not ready to show their hand just yet: that it is not the pelicy of the Times to put the Parnellites in possession of its testimony until the proper time.

Webster praised the Times' public spirit and defended its malicious accusations. He then proceeded to give an outline of the Fenian movement.

LONDON, October 22d.—When the Parnell Court of Inquiry adjourned for the day Webster was apparently only a small way advanced in the presentation of his case. The vagueness and general character of his statement left the impression that the Times has no absolute proof of the truth of its charges. The Government advertised in New York and London for 2,000 army blankets. The English bid was \$4,504, free of duty. Supposing the Government had to pay any duty, it would have made the cost \$7,520. That's what the tariff would make the price of the blankets in America, according to Cleveland, but the American bid really was \$5,120, but the Government went to England all the same for its supplies for the American army, in order to save thirty cents on a pair of blankets. CANNOT SUPPORT CLEVELAND.

John T. Doyle is a life-long Democrat and one of the leading legal lights of the San Francisco bar. In the San Francisco Call of Monday appear statements made by Mr. Doyle why he cannot support Grover Cleveland. Among the reasons adduced are that one of the first acts of Mr. Cleveland as President was the killing off of the bill, originated under a Republican Administration, to promote the building of a ship canal across the Isthmus of Nicaragua; that Mr. Cleveland has unnecessarily awakened tariff agitation that is doing the country harm; that he insists upon the statement that the price of commodities at home is the price abroad, plus the duty, which Mr. Doyle calls attention to as an untruth; that Mr. Cleveland does not appear to know that his so-called tariff modifications all tend to, and that their outcome must be, free trade; that he has made a fatal mistake upon the silver question; that he has proved untrue to civil service reform and his pledges to promote it; that if Jefferson had pursued the socalled economic and cheese-paring policy of Mr. Cleveland, all the territory west of foreign possession; if Polk had been animated by the same ideas as Mr. Cleveland, California, Arizona, New Mexico and Nehis Democracy he has been consistent, and we believe it has not been questioned by his rooms and bath, with lot 20 by 80 feet. we believe it has not been questioned be-That he cannot support Mr. Cleveland is now his frank declaration, and the sum and substance of his reasons appear to be that Mr. Cleveland, and not Mr. Doyle, has departed from a wise policy for the party.

The Solid South is being raked by campaign fine-toothed combs for financial aid to assist the Democracy in carrying Indiana. Hear one of the speakers in Kentucky make this impious appeal:

Now, gentlemen, I appeal to you—not to give us the electoral vote of Kentucky, because that is ours already: the Lord intended it so: it always has been so—but I appeal to you to aid the people of Indiana, to help the gallant Democrats in the Hoosier State to put into the Vice-Presidential chair and lodge the deciding vote, the control ing power, in the hands of the broadest-brained and biggest-hearted apostle of the Democratic faith that lives to-day, unburied a mong men.

If money can carry Indiana the Democracy means to accomplish that end. They will use the same means they employed in 1884, when they levied and collected a dollar assessment upon every adult Democrat in Kentucky and Tennessee, for "the Indiana fund." They continue to circulate the lies about General Harrison despite to the lies about General Harri Chairman Brice's washing and wringing of hands; they are colonizing voters by "over diplomaed remedy in the Ohio importations" without number; the United States. A BILL HE VETOED.

In his logical, effective and vigorous speech in this city Saturday night Senator Stewart, incidental to a review of the course of the President, read a bill which passed both houses of Congress and went to the President and was killed by a pocket vetc. petition with free labor the fact of that veto will have peculiar significance. The bill provided that in all construction of Federal works no convict labor should be employed, nor should there enter into the construction material any of the products of convict labor. The same recital was used also egainst imported contract labor. This bill Mr. Cleveland declined to approve. His scripe will scarcely commend itself to the

workingmen who have made antagonism o competition of convict with free labor a special subject for agitation.

THE NEW PUMP.

The NEW PUMP.

The question as to what action should be taken in regard to a new pump was called up by Mr. Wolf. Mayor Gregory thought the Board the assembled Democracy were not choice or subdued in their denunciation of the inter-Resolved. That we express decided favor for the city of London as the proper place for holdthat these matters shall properly, and without loss of time, be placed before the coming session of the Legislature of the State of Califo.nia, for due consideration, to the end that the same receive legislative sanction and State financial aid.

Judge Armstrong listened to the arguments of counsel in the case of W. W. Cone, charged with the larceny of a money order sent by J. A. Coll to C. S. Houghton. W. A. Anderson, for appellant, contended that the money order was payable to W. W. Cone, and that no other person could draw the money, and that it came into his possession lawfully, and that he acted on a claim of right, therefore no larceny could prevail against the defendant.

C. T. Jones for the people argued that Cone of the country of the people argued that Cone them. on a claim of right, therefore no larceny could prevail against the defendant.

C. T. Jones, for the people, argued that Cone knew when he received the check that it was a mistake, and that the order was for C. S. Houghton, which makes its appropriation larceny. Cone claims that at all times after the discovery of the mistake he was ready to pay the money over, and did tender it to Houghton before the trial, but it was refused. Since the trial he has paid \$10.55 to Coil and obtained his receipt and request to dismiss the prosecution.

Judge Armstrong took the case under advisement.

An "Excellent" Officer.

The following definit on by the Chief Signal Officer of the words "good," "very good," or "excellent," as affixed to the discharge certificate of each Signal Service Observer, is publicate of each Signal Service Observer, is publicated in the condition of the levees. Mr. Abbott stated that the work had been done by sub-committees and that Mr. Folger would submit the report of their labors, which he did, as follows: cate of each Signal Service Observer, is published for the information of all concerned, viz: "Good"—For correct, faithful conduct during a term of enlistment. "Very Good"—For correct, faith ul conduct with cheerful willingness and zealous devotion to duty, "Excellent"—For conspicuous devotion to duty, upright and unwavering fidelity, and high personal integrity. Sergeant Barwick has been discharged three times since his first enlistment in the Signal Service and upon each discontinuous devotions. ment in the Signal Service, and upon each dis-charge he received "excellent" as his standing among the enlisted men of the Signal Corps, which speaks well for the Sergeant during a

service of over fifteen consecutive years.

Drager and Olsen. Brager and Olsen are in hopes of escaping the extreme penalty of the law for their complicity in the murder of John Lowell, and to that end a petition is being circulated by their attorneys throughout El Dorado county. The petition sets forth that there is grave doubts as to their guilt, and that it would be wrong to hang them after John Henry Myers had contessed to being the sole murderer. The petition is receiving a large number of signatures, and Governor Waterman will be asked to commute their sentences to life imprisonment. They are dovernor waterman will be asked to commute their sentences to life imprisonment. They are sentenced to be hanged on the 30th of November next, in the jail-yard at Placerville. Myers holds up well in prison, but Drager and Olsen are completely broken down.

Disastrous Fire. Early Sunday morning a fire broke out in the brush on the banks of the American river, just in the rear of Joseph Routier's farm, opposite Routier's Station. It ran through the stubble Routier's Station. It ran through the stubble and crossed the railroad track to the place of Mrs. E. Boyd. It burned a large stack of hay, the barn and its contents consisting of a large lot of sacked wheat. It was with great difficulty that her residence was saved and the horses rescued from the barn. The fire did a great deal of harm to vineyards and orchards, and destroyed considerable fencing. Mrs. Boyd's loss is upwards of \$3,000. She had do insurance. It is said the fire originated by the lighting of a fire by some hunters on a small island in the river.

Rvangelists Coming.

It is now definitely known that D. L. Moody and Sam Jones will spend some time in evangelistic work in Sacramento the approaching winter. At a meeting held at the Y. M. C. A. parlors of pastors and laymen representing the several churches of the city, a unanimous and very cordial invitation was extended to the eminent evangelists named. It is expected that one of them will be here as early as December, and Mr. Jones will probably be the first upon the field.

THE CITY FATHERS.

Yesterday-Condition of the Levees. The Board of Trustees met in regular session

which requires that stone or cement walks shall be laid. He stated that nearly one hundred and sixty feet of welk had been laid. Mayor Gregory stated that E. G. Blessing, of the Country late of the country

should proceed very cautiously in that matter. At first he had been strongly in favor of a new pump at once, but Judge Beatty had presented to the Board some facts that were worthy of careful consideration. He did not know that

then.

The Mayor suggested that Judge Beatty, or any other citizen who desired, should be allowed to make a thorough investigation of the pumps.

Mr. Wolf said that he had invited Judge Beatty or any one else to make any experiment they chose that would not interfere with the city's water sapply.

There being no objection the matter was laid over for the present.

THE LEVEES AGAIN.

SACRAMENTO, October 9, 1888.

To the Honorable Board of Trustees: At at meeting October 9, 1888, of the Levee Committee appointed by the Executive Committee of the Improvement Association, the following reports on the levees were rendered, which was ordered submitted to the Honorable Board of Trustees: Trustees:

Cone's Case on Appeal.

In the Superior Court yesterday morning, Judge Armstrong listened to the arguments of counsel in the case of W. W. Cone, charged

To the Board some facts that were worthy of careful consideration. He did not know that the enlate the positions he had taken, but some of his statements ought to be very carefully considered. He had argued that the enlargement of the mains wou'd interess the supply sufficiently for present needs, and this could be done at an expense of \$10,000. If this was true, the Mayor saw no reason for spending 260,000 for a pump at this time.

Mr. Wolf said that he did not think that Judge Beatty had made a single point that could be substantiated by the facts. He had come before the Board stating that he had facts and figures, but had been compelled to admit that his figures were not correct. So far as the pump was concerned he was willing to have the matter he promised, if elected to the Senate, to do all in his power to have the substantiated by the facts.

J. W. Hughes, candidate for District Attorney, was concerned the action that the ningular promised that if elected to matter she preferred the advice and judgment of such as the next speaker. Colored Republicans. A largely attended meeting under the auspice of the Colored Republican Club was held last evening at their headquarters on Fourth street. The colored citizens turned out en masse and hundreds of others, many of whom could not get inside the hall, were in attendance. The meeting was called to order by B. A. Johnson. He made a short address, after which the Colored Republican Glee Club sang some campaign songs. The singers were William Corey, Ray Butler, Mat. Christopher, George Huddelson and F. Butler.

losing nothing by departures from the conventional. We have no hesitancy in expressing the opinion that his personation of the character may be placed alongside the best seen upon this coast, and suffer little, and only then in comparison with the Othello of Salvini. Mr. Mosley as lago was thoroughly good. He was in contrast, of course, with the best lago of the world, Booth having thrice played the part here; probab y there was not a dozen in the audience who had not seen America's greatest dramatic artist in the part. Mr. Mosley certainly has a fine and rational conception of the part, the most difficult and exacting of the play, as it deals with the most subtle emotions and the lowest passions of humanity. Marie A Democratic Meeting.

The Democrats assembled in an outdoor mass meeting last night at the corner of Fourth and K streets, to hear what the county candidates of that party had to say on the issues of the camban that party had to say on the issues of the camban to the county candidates of the county county candidates of the county candidates of the county candidates of the county candidates of the county county county candidates of the county c we have seen, yet it was justified by the text of the part. James' Othello was wholly devoid of savagery, his raging anger was scarcely more thau momentary, so much did the intensity of love and the grief of the soul overbalance and dominate the graduat of his icelestrate when dominate the product of his jealousy. Against this strong and human interpretar ion the timidity and extreme gentleness of the Desdemona of Marie Wainright was a strongly relieved picture. It was evident throughout that the lady was acting under self-repressin. There was studied effort to manifest no great vocal power, nor any demonstrative emotion. It may not have satisfied the craving for strength in acting, but it was the completeness and symmetry and have satisfied the craving for strength in acting, but it was the completeness and symmetry and freshness jof a youthful, timid and awe inspired love by a beautiful woman for a being before which she bowed in consciousness of inferiority; a sentiment of the female mind true to the age in which the action of the play moves. The Cassio of Mr. koyle was excellent, it was intelligently read, and the "business" of the part was elaborated in a manner to give it new and gratifying interest. Scarcely less effective was the Brabantio of Mr. Langton. Of Emelia, we have had several stronger than that of Miss Meek, but it was not without positive merits. To night for the

eral stronger than that of Miss Meek, but it was not without positive merits. To-night, for the first time in Sacramento, Shakespeare's comedy "Much ado About Nothing," is to be played. In that charming and involved plot the New York World's critic promises us a Beatrice in Miss Wainwright, that has "a thousand surprises in it." It is a Beatrice "so unlike the traditional," says the same writer, Nym Crinkle, "in her assumption of sparkling, vital and womanly spirits that I can readily believe—as I am credibly informed—that she never saw the play acted. This exhibition of native spontaneity directed along new lines of thought and expression is very grateful to blase theatergoers, who are well aware of the tendency of even good acting to fall into mere repetition. We do not go to the play house to see old forms We do not go to the play house to see old forms preserved so much as to see new individuality assert itself." James will be the Benedick of the comedy and the admission is uniform that it is in his hands a finished and artistic character. Dogberry is to be given to Mr. Langton, and from what we have seen of him it is safe to expect a presentation of the character satisfying and strong. The play will introduce five faces not in last night's cast, two of them ladies as Hero and Ursule. As completeness in datalise casts.

and Ursula. As completeness in details goes to make up success in the construction of a per formance, the costumery of the troupe deserves more than passing notice, since it clothed the play appropriately and richly last night, and according to the best models and designs of the world, and we are assured that the same marked and pleasing feature of excellence will distinguish the staging of the comedy this evening and notably in the robes to be worn by the leaders. Mr. James' company is one worthy of strong compendation and patron. be worn by the leaders. Mr. James company is one worthy of strong commendation and patron-age. Coming into such strong contrast with the long reign of trash and instpidity upon the stages of the two theaters here, it stands forward with unusual prominence, and deserves the recognition good art work should always command from a public anxious to see the stage re-deemed from low farce and the borderland of vulgariy. A THRILLING SCENE. Sensational Incident at a Funeral Cere-

Chicago, October 22d.—A sensational incident happened to day at the funeral services of C. S. Squires, who was Assistant Postmaster at Chicago for nineteen years. After having worked his way up from an errand boy in the postal service, Mr. Squires was reduced to the Chief Clerkship, and subsequently suspended. His triends claim that he died of a broken heart.

The funeral took place with high Masonic honors in the "Emanuel Baptist Church, one of the most prominent congregations in the city. The church was crowded to overflowing. Dr. Lorimer pronounced the eulogy, and his eloquence had already greatly wrought the audience, when he said:

"I see in the dead before me the arraignment of the civil service. I think, as he lies there that he declares the failure of the system. Our ideal is still beyond our intellect, nor will justice and purity prevail in the civil service until preferment shall be given upon a scale of talents and fitness."

A POPULAR OUTBURST.

There was a moment of silence, and the big church rang out with an unrestrainable outburst of applause. Knights Tempiar in regalia and plain business men excitedly shouted their approval, notwithstanding the sacred surroundings and the presence of the dead.

Dr. Lorimer besought order, saying: "Nothere; nothere;" but adding: "Had the loved and lovable man his just deserts, he would still be actively among us, or we would have been mourning for the dead Postmaster of Chicago, and not the clerk of the registry department."

So intense was the agitation of the audience that it was with difficulty the church could be cleared.

MISCELLANEOUS.

ABSOLUTELY PURE

For quick raising, the Royal Baking Powder is superior to all other leavening gents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.

DRUNKENNESSI

Address by Hon. Joseph McKenna.

MAYHEW'S STATION...Saturday, November 3d SACRAMENTO.......Monday, November 5db by Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge and to-day believe they quit drinking of their own free will. If Never Salls. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appoint to exist. For sale by Jos. Hahn & Co., Druggists, cornet Fifth and J streets, Sacramento, Cal. d8-TThSly
